

South Side Liberals to Adopt Constitution

A meeting of the south side liberal club which was to have been held on Friday evening, January 23, has been postponed to Tuesday, January 27. As the constitution is to come up for final adoption, this meeting promises to be unusually important and it is expected that south side liberalism will be out in full force.

LORD STRATHCONA WHILE HE SLEEPS

Dominion Parliament in Session at Ottawa When Categram is Received, and Adjourns Until This Afternoon When Premier Borden Officially Will Communicate the Sad News

SYNOPSIS OF LORD STRATHCONA'S CAREER

1821—Born in Morarshire, Scotland.
1828—Emigrated to Canada, and entered service of Hudson's Bay company in east.
1848—Entered Labrador, where he established record as a trader.
1849—Came west as Hudson's Bay company factor.
1850—First rebellion in the setting of which he played an important part.
1850—Elected as member for Winnipeg and St. John in the provincial house.
1850—Appointed to first Northwest council.
1871—Elected member for Selkirk in Dominion house.
1872-1873-1874—Again elected member for Selkirk in Dominion house.
1880—Defeated in Winnipeg by Col. Thomas Scott for seat in Dominion house.
1882—Completion of Canadian Pacific railway, in which he played a great part.
1883—Received knighthood of the Order of St. Michael and St. George.
1887-1888—Held seat in Dominion house for Montreal west.
1888—Appointed governor of Hudson's Bay company.
1896—Created G.C.M.G.
1897—Created Baron Strathcona and Mount Royal of Canada, Argyleshire and Mont Royal, Canada.
1898—Appointed Canadian high commissioner in London.
1898—Lord Rector of Aberdeen university.
1900—Sent Lord Strathcona horse to South African War war.
1903—Cancellor of Aberdeen university.
1905—Created G.C.V.O.
1909—Made last visit to Winnipeg.
1909—Made last visit to Montreal.
1913—Visited Montreal in company with Lord Haldane.

London, Jan. 21.—Lord Strathcona died at 145 this morning.

The aged statesman's last moments were very quiet, and he passed away peacefully in his sleep.

His lordship's fall illness was but short, and it was recalled from an early hour Saturday morning that he was sinking beyond recovery. An attack of catarrh, which could have been a comparatively trifling matter for a man in the prime of life, was too severe for one who had passed the four score and ten mark well over three years ago. The malady completely prostrated him, and he lay in a heart weakness, so that the aged patient sank into a state of coma.

His lordship, Lord Strathcona's only daughter, and to whom the title descends by royal patent, was present at the end, as were other members of the family. The house at 23 Grosvenor square was besieged by inquisitors as to the venerable statesman's condition, the kind and quiet being solicited, and with other members of the royal family made repeated inquiries.

When death notice was finally posted, expressions of sympathy were received by hundreds from all sections of London's diplomatic, philanthropic and social life, and are still pouring in. Even in a night, hundreds of letters of condolence, and of the most striking personalities, Lord Strathcona's life had been one of the most striking.

Worked Until the End.
Until two months ago Lord Strathcona attended the office in Victoria street daily, arriving at 10 o'clock, or even earlier, and remaining until 11:30 or 12 noon. The Canadian office, in fact, had been nicknamed in the vicinity "the light house," through the windows, frequently being lit long after the street was in darkness. There is not the least doubt that sheer force of will alone enabled Lord Strathcona to continue his activities even at such a venerable age. A significant incident occurred at the Hudson's Bay company's meeting last June.

Lord Strathcona, presiding, started reading his speech in a document extending over several pages. His voice, at starting, was perfectly clear, but gradually it weakened and it was a palpable strain following the typewritten pages. The shareholders, too, listened with interest.

BURDOCK BLOOD BITTERS CURED A BAD ATTACK OF ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Rash, Boils, Pimples, and itching Skin Eruptions, are always caused from the blood being in a faulty condition, and it is impossible to eradicate them from the system unless you put your blood into good shape. This you can very easily do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure, and not only are the unwholesome diseases removed, and a bright clean complexion produced, but the entire system is renovated and invigorated at the same time.

Mrs. G. A. Day, Somerville, N.H., writes: "Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they did not make me

LIFE HISTORY OF LORD STRATHCONA CHAPTER OF WEST

Story of the Career of "The Man of Iron" is One of Amazing Activity and Surprising Success—Whole of the Dominion Composed the Field of His Operations

The imagination can scarcely supply a more thrilling career than that closed by the death of Lord Strathcona, "The Man of Iron." His life story is a moving chapter in the history of the West's development, one of amazing activity and surprising success. While Hudson's Bay was the center of his life, the man of iron was the center of the Dominion's life.

Born at the time when Europe was just settling down after the agony of the great Napoleonic wars, and coming to Canada when the Dominion was not dreamed, and when even there was little semblance of union among the provinces, he has lived through the history of civilization.

When Donald Smith, aged eighteen, left his home in Morarshire, and sailed for Canada, Queen Victoria had just been crowned and the first steamship was preparing to cross the Atlantic. It took him six weeks to do a journey which is now accomplished in six days. The revenues of the country were not worth speaking about. The center and West were not accessible, for there was no railway across the continent, and the vast territories administered by the Honorable Company of Adventurers, founded by Sir John A. Macdonald, was the Great Lone Land of adventure.

Into this wilderness went Donald A. Smith in 1838. After ten years in the Hudson's Bay company, he returned to England, where he remained until 1864, and established a reputation as a trader in furs, and an administrator of the Hudson's Bay company. His fact and wisdom won the confidence of the Indians, and his firm constitution enabled him to thrive on the rigors of the climate.

Parliament is Adjourned.
Ottawa, Jan. 21.—Parliament was in session at the end, as the official cablegram announcing the death of Lord Strathcona arrived and was sent to the House of Commons. The House later, having consulted with Sir Wilfrid Laurier, both leaders left the chamber to confer concerning the sad news. At the conclusion of Sir Wilfrid Laurier's speech an adjournment of the debate was moved and the House adjourned until tomorrow.

When spoken to in the corridor Sir Wilfrid Laurier expressed his sorrow at the news, but added that he would continue his committee until 10 o'clock in the house today. Premier Borden took the same position.

It is probable that the House will be adjourned today at the conclusion of the tributes to the distinguished Canadian out of respect to his memory.

MITCHELL STARTS TO RED-CLINGING

Says Foreigners Were Wrongfully Naturalized to Turn Election Results.

Toronto, Jan. 21.—Edward Mitchell, leader of the conservative party in Alberta, stated yesterday that there was an accumulation of feeling among western citizens that the policy which made the United States a rich and prosperous country was a good one for Canada as a whole to pursue, that her resources and industries might be developed to the best advantage.

The conservative leader also stated that established business was moving for all legitimate purposes, and commercial concerns were sound. Speculation, he said, had practically ceased in city properties and prices were tending their money with more caution and better results. The agricultural interests have experienced an exceptionally good year and had little reason to complain.

The delegation which waited on the government last week were satisfied with the outcome. They were well received and looked for some beneficial results. One point which they urged was a change in the present naturalization regulations. They felt that the government did not wish to cheapen citizenship in the west. Immediately preceding last year's election, Mr. Mitchell thought that enough foreigners were wrongfully naturalized to turn the result of the election in their favor, that citizenship would not be so easily secured in the future.

DODDS KIDNEY CURE

GET IT AT THE BAY

keep on working. Perhaps the key to his remarkable success lay in his favorite advice: "When a man has his duty to do he has not time to think of himself or his years, nor to allow himself any vain indulgence which makes him feel slack and spoil him for good work."

Political Career.
Lord Strathcona's first appearance in the field of politics was in 1850 when with Dr. C. J. Bird he was chosen as a candidate for the house of commons in the city of London. He was elected in 1850. The same year he was elected without opposition to represent Selkirk and St. John in the provincial house.

Thus the first parliament of Manitoba was held in the house of A. G. B. Bannatyne, "the best and most comradely building in Winnipeg."

Eventually Dr. Bird retired from the Dominion contest but a new candidate appeared in John Taylor. The first Dominion election in Manitoba took place on March 5, 1871, and in Selkirk the result was as follows:

J. A. Smith 233
D. A. Smith 139

Majority 94
Second Contest.

The second Dominion election in the province of Manitoba was in September, 1872. Donald A. Smith was this time opposed by Mr. Wilson (of the firm of Wilson and Gammage) and the result was a narrow one. Mr. Wilson was elected, but the expenses were enormous, and both Mr. Smith and his colleague, Mr. Stephen, were obliged to pledge their private fortunes in order that the work could go on. In Montreal there were many stories in circulation of the meeting which used to be held at which the board of directors sat with blank faces, discussing ways and means.

At one of these meetings Mr. Smith is alleged to have said: "It's clear we must money. Well, we can't raise it ourselves. Let us raise it tomorrow and report results."

When the board met next day each member reported failure until it came to Mr. Smith's turn. "I've raised another million; it will carry us on for a while. When it is spent we'll raise some more." And so the work went on. On November 7, 1885, five and a half years before the railway was finished, and the people began to realize how much one man had done by pluck, energy and determination.

Fourth Contest.
In 1875 Donald Smith was again a candidate for Selkirk, his opponent being Mr. Morris. This was most bitterly fought out by the partisans of the meeting which used to be held at which the board of directors sat with blank faces, discussing ways and means.

It may be understood that in all these contests Donald A. Smith, now a supporter of Sir John A. Macdonald, met a supporter of Mr. McKenna, and then again a supporter of Sir John, who was at heart neither Liberal or conservative. He had only one policy, to build the Canadian Pacific railway. From this policy he never swerved and himself drove the last spike of the line on November 7, 1885, at Craigellachie, B.C.

Fifth Contest.
The last time Donald A. Smith was in the west in which Donald A. Smith was a principal, was in 1888, when in September he contested the Winnipeg seat with "Tug Scott." The fight was strenuous one and when Colonel Scott was elected his adherents carried the rest over his head to a pitch that showed little consideration for the defeated one.

Having in the meantime taken up his residence in Montreal, Lord Strathcona represented the constituency of Montreal West from 1887 until 1893 when he was appointed High Commissioner for Canada at London and sworn on the privy council.

ADMIRALTY BOARD WILL NOT RESIGN SAYS CHURCHILL

London, Jan. 21.—First Lord of the Admiralty Churchill has authorized the publication of an emphatic contradiction of the Daily Telegraph's statement that the members of the admiralty board have expressed their intention of resigning in the event of the first lord meeting with defeat in the cabinet on his naval policy.

UNEMPLOYED MAN THREATENS TO REDUCE VANCOUVER TO ASHES

Vancouver, Jan. 21.—Mayor Baxter last evening received an anonymous letter from one of the band of Industrial Workers of the World that unless he received employment within the next three days the city of Vancouver would be reduced to ashes. The police are investigating the case, but so far no arrests have been made.

High Commissioner.

In 1897 when 77 years of age, Lord Strathcona became the Dominion's representative at the metropolis of the Empire. His tenure of office has witnessed the wonderful development of the west and the energy and ability which has displayed notwithstanding his advanced age, have been a marvel to the thousands of men and women who met him at 3 a.m. and dine at 7 p.m. the famous Strathcona House, for service during the year, will not soon be forgotten.

In private life Lord Strathcona was a delightful host, a kind and considerate husband and a devoted father. His wife, whom he married when a factor in the Hudson's Bay company, was the daughter of Richard Hardisty, a trader in the company's service. He had but one daughter, the wife of Dr. Robert J. B. Howard, upon whose son he bequeathed a large estate.

"Who rests peaceful," was a maxim of Lord Strathcona. It is related that years ago, when Andrew Clark, the famous physician, told him that he ought to live 100 years if only he would

WHY EXPERIMENT?

HERPICIDE, the First Preparation for Combating Dandruff Contagion, Has Proven Its Worth.

Like most new creations and truths, Newbro's Herpicide, the first preparation in America to be compounded in accordance with the theory that dandruff is a contagious disease, was the subject of much ridicule. The theory of dandruff as a contagious disease was met with severe criticism, not to say antagonism, by many.

But what is the situation today? Truth has prevailed. The facts concerning the origin of dandruff are known. That it is a contagious disease is admitted.

The extraordinary success of Newbro's Herpicide, both in America and abroad, has caused practically all other scalp preparations to abandon their old claims and imitate those of Herpicide. It is everywhere. No doubt any change made in the preparation, the sincerity of these

claims may be doubtful. But why give these other preparations a thought? Why experiment? The point is this: "Success" is the thing that is always imitated. Herpicide is and has been imitated widely. Why be persuaded to buy an imitation when it is more sensible and in the end more satisfactory to buy the original? Remember, Newbro's Herpicide was positively the first and original as a contagious disease.

You can get a trial-size bottle of this well known scalp prophylactic, also a booklet on the care of the hair by Herpicide Co., Dept. "S," Detroit, Mich. Herpicide applications obtained of the better barber shops and hair dressing parlors. Sold and Guaranteed everywhere. Price, 25 cents and 50 cents and 1.00. Geo. A. Graydon and E. M. Carpenter, special agents.

CLAIMS FREE FOOD POLICY WOULD HURT MANUFACTURERS

Senator White Gives This as Excuse for Rejection of Laurier's Plan.

Ottawa, Ont., Jan. 21.—Yesterday was the second day of the debate on the address, Mr. Maclean, Halifax, the first and chief critic of the opposition, opened with a speech of well over two hours duration. He was followed by Mr. White, minister of finance, who was still going at six o'clock, and continued to speak for a considerable time after the speaker resumed its seat at eight o'clock.

To Mr. Laurier the speech from the throne was a disappointing deliverance. He said it would have been much better had the government outlined legislation designed to cope with the existing conditions. Mr. Maclean thought that the government might at least have made provision for a temporary remission of some of the duties on food products.

Rule of Government

He criticized the finance minister for his borrowings in the London market and declared it was the plan of the government to endeavor to bring about a fictitious prosperity by expending large sums on public works.

Mr. White, in the course of his reply, dealt with most of the contentions of the junior member for Halifax. He quoted statistics with the object of proving that the Liberals in their day had been worse offenders than the present government in the matter of borrowing money to carry on the government.

He also made a review of the tariff under present conditions.

An Ostentatious Policy.

Mr. Frank Oliver described the policy of the new government as an ostentatious policy. The ministers, he said, had buried their heads in the sand.

THREE INDUSTRIES ASK COUNCIL FOR WATER EXTENSION

Representatives Appear in Person to Present Their Claim for Utilities
ALL ARE REFERRED TO WORKS COMMITTEE
If Granted 200 Men Would Be Employed All the Year Round in Future.

The representatives of three month side industries appeared before council last night with a view to urging on the city the necessity for the extension of water, sewer and light utility to their various establishments. The companies represented were the Dean Iron Steel and Bridge company, the Webster Wool Mills and the Edmonton Leather and Shoe company.

After listening to W. G. Condon, the vice-president of the latter company who explained the situation in some length, the council decided to refer the matter to the works committee for consideration and report. It being understood that the representatives of the various industries would be notified when this committee met that they may be present and present further arguments in favor of the granting of their requests.

History of Plant.
In laying the matter before the council, Mr. Condon reviewed in brief the history in connection with the organization and establishment of the leather and shoe plant. He stated that the council of 1912 had promised the extension of the utilities now asked for at that time and in good faith the company proceeded to erect buildings at a total cost of \$150,000. He told the council that the city has already shown that they mean business and are not regretting any real estate boomers but solely the Edmonton Leather and Shoe company.

Mr. Condon said that he did not own a foot of land anywhere near the plant. Up to the present time the company has used every effort to get a great deal of money in trying to get a sufficient supply of water for the tannery but without avail. It will be drilled to a depth of 200 feet and on the recommendation of an expert another one was sunk but no water was obtained.

Work for 100 Men
Without the necessary water supply it was pointed out to council that where this industry could be employing 75 men right along only seven men on the job would be possible all year. Another branch of the business would make room for still another 25 men, said Mr. Condon, if only water were available. He stated that there is no sufficient leather and hides in the city to supply \$100,000 and the utilities here in there would be demand for \$150,000 worth of this class of material.

Demand for Product
"Unless we get water we must close down the plant as any leather known that we cannot afford to operate a \$25,000 plant and only employ seven men." To show that there is sufficient demand for the product of the factory, Mr. Condon said that recently an order for \$12,000 worth of goods has been turned down because the finished product could not be produced under the existing conditions. Mr. Condon then stated that the extension of the water mains to serve these industries in Metcher would be a moving proposition to the city as there are other buildings along the line which would require service, one man stated that the building would be a boarding house to accommodate 50 men if the water is installed. Emphasis was laid on the fact that the city would create legitimate work for the unemployed in the city and this resolution, under unfavorable conditions, Mr. Condon concluded by stating that the industries represented would soon be employing at least 200 men all year around and he thought this would be sufficient to warrant the council undertaking the expenditure. The city would extend the mains to the city limits at this point and the industries would carry the line to their plants.

Aldermen Are Favorable
In moving that the matter be referred to the public works committee and the commissioners, Alderman May said that this question has been before the council at a number of times since 1912 and it is now time that the council arrives at some decision. Alderman Clarke was also in favor of the extension should be carried out but suggested that the representatives of the companies should be asked to give guarantees that they will actually be employing 150 or 200 men within the year. He stated that they could do this he saw no reason why the council should not vote that the work be done at once. The estimated cost would be between \$12,000 and \$15,000.

Dr. Moore's Indian Root Pills
exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of constipation but they help greatly in breaking up a cold or a grippe by cleaning out the system and refreshing the blood. They are a sure relief of colds, biliousness, indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Moore's Indian Root Pills are a Household Remedy.

FAIR WAGE CLAUSE TO BE INSERTED IN ALL CITY CONTRACTS

Alderman Kinney is urging the commissioners and the council to have a fair schedule of wages inserted in the future wage clause on all contracts to all city contracts. The list is now being considered by the commissioners and the schedule of wages requested by the Trades and Labor council is given below:

Building trades—
Bricklayers and Masons—75c per hour; hours 8; Saturday 4 hours.
Carpenters—50c per hour; hours 8; Saturday 4 hours.
Electricians (inside)—50c per hour; hours 8; Saturday 4 hours.
Painters—50c per hour; hours 8; Saturday 4 hours.
Plumbers and Steamfitters—60c per hour; hours 8; Saturday 4 hours.
Stonecutters—50c per hour; hours 8; Saturday 4 hours.
Sheet Metal Workers—60c per hour; hours 8; Saturday 4 hours.
Plasterers—75c per hour; hours 8; Saturday 4 hours.
The Layers—75c per hour; hours 8; Saturday 4 hours.
The Layers' Helpers—50 5-5c per hour; hours 8; Saturday 4 hours.
Building Laborers—50c per hour; hours 8; Saturday 4 hours.
The working day of the above grades shall consist of eight hours, except Saturday, when work shall cease at 12 noon.
Trade Union Workers—55 5-5c per hour; hours 8; Saturday 4 hours.
Common Laborers—50c; hours 9; Saturday 5 hours.
Two-horse team, wagon and driver—per hour; hours 9; Saturday 5 hours.
Machinists—40c per hour; hours 9; Saturday 5 hours.
Machinists' helpers—25c per hour; hours 9; Saturday 5 hours.
Blacksmiths—40c per day; hours 9; Saturday 5 hours.
Blacksmiths' helpers—13c per day; hours 9; Saturday 5 hours.
Boilermakers—47 1-2c per hour; hours 9; Saturday 5 hours.

ELECTRIC POWER OFFERED 0.9 CENTS FOR 0.9 CENTS

Company Seeks Contract at This Price for Term of Eleven Years

COUNCIL TURNS PROPOSAL DOWN Some Aldermen Favor Having Proposition Taken up in Committee.

The council turned down a proposition made by the Edmonton Power Company in which this company offers to supply the city with electric energy for a period of eleven years at a price of 0.9 cents per K.W.H. The daily consumption as set forth in the agreement is 4,000 K.W.H. between the hours of 6 a.m. and 12 p.m. and 2,000 K.W.H. between 12 p.m. and 6 p.m. and 8 a.m. The lowest price the city is now charging the utilities is 2 cents per K.W.H. to the street railway and to power users when taken at off-peak times.

H. H. DeWitt, one of the principals of the Edmonton Power Company, was present at the council meeting last night and explained his proposition. He stated that before the council he had laid the matter before Superintendent Parsons who stated that he would approve of the proposition. Mr. DeWitt said that he was willing to let the city that his company could produce electricity much cheaper than the city, and if he could not do this, then of course the city should produce its own power. The whole proposition as submitted by the company is embodied in a form of an agreement with all the necessary binding clauses to protect both the interests of the city and the users when taken at off-peak times. The agreement having been approved by Messrs. Emery, Newell, Ford, Bolton and Moore.

Should the city decide to take over 200,000 K.W.H. during the year, all power taken over this amount would be charged for at the reduced rate of cents per K.W.H.

In moving that the offer be filed, Alderman East took the view that it is not good for the city to let a private party take care of the peak load when the city could not be involved in it. "That is a matter which will stand a little investigation," said Alderman Kinney said that this committee might get some valuable information from the matter, and secondly the amendment made by Alderman Campbell.

Alderman Smith said that if this proposition is entertained there will be dozens of power companies with similar propositions, some of which were last year, and the time of the commissioners and superintendent will be taken up in investigating them instead of devoting their time to making the utilities pay. "Let these men get on with their work," said Alderman Kinney, "I have no objection to their utilities," he argued. "The cost of power was reduced last year, and it will still further be cut down this year."

Alderman Calder and Douglas were of the opinion that the matter should be referred to a committee for investigation, but the majority of council was in favor of the proposition, and Alderman East's motion to this effect was declared carried.

Save Money On Your Kitchenware

Thursday we are featuring very special prices in our hardware section on second floor. This should prove of special interest to all thrifty housewives as they are all useful, everyday articles priced lower than any other place in the city. Look over the prices quoted below. They are for this one day only, but at any rate they will give you a slight idea of the wonderful specials that are to be found here.

Filed Private Offer to Supply Cheap Power.
Heard Representatives from South Side Industries. Approved Invitation to the United Farmers' Ass'n. Heard Delegation Opposing Action of Telephone Dept. Rejected a Mortgage to the Lyngdon Hotel. Referred Hog Cholera Letters to Committee. Approved of Recommendations of Standing Committees. Received Complaints Regarding the Bread Brawl. Adjourned to Meet Thursday on the Estimates.

Fatality of Whooping Cough

Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child who has it any special attention. That the plans for placing before the people the merits of a direct form of legislation as embodied in the elective commission form of government may be perfected, Alderman Clarke gave notice of a motion which he intends to introduce at the next meeting of the council. The notice reads: "Now therefore this council hereby resolves that in order to have a proper commission form of government established for the city of Edmonton, carrying with it initiative, referendum and recall features, his worship the mayor be instructed and authorized to appoint a committee of four members of this council for the purpose of outlining a plan and suggesting a method by which the necessary information and suggestions in connection with this matter shall be fully obtained by the council of the city of Edmonton, touching on and dealing with the following extensions: (1)—The extension in accordance with the said plan, so as to serve the

Extension is in Accordance With Terms of Amalgamation Act.

South Siders Enter a Protest
Claim That Closing Telephone Office Breaks Amalgamation Act.

Petition Has Been Signed
Council Recommends That Rates Be Collected as Previously.

Carpenier Will Not Introduce Radical Change in Schools
W. G. Carpenter, the newly elected public school superintendent, took over his duties yesterday and is now to be found seated in his official chair in the school administrative building. It is understood that Mr. Carpenter will introduce no radical changes in the school affairs, but will carry them out much along the same lines as followed by Mr. Richardson.

Largely Signed Petition.
The council was informed that a petition had been circulated and this was signed by over 200 representative business men who are opposed to the action. A. T. Mode submitted a letter on the same subject in which he quotes from section 16 of the Amalgamation act which states that all rates shall be paid on the south side of the river. The council decided to recommend to the finance committee that it future one clerk be kept on the south side for the collection of all accounts not only for this but also for all other utilities. This motion brought peace to the anxious members of the delegation and they soon left the hall wearing broad smiles.

NOVA SCOTIA BANK HOPEFUL FUTURE OF ISSUES MORE STOCK SOCIAL'S BARD

Annual Report Shows Institution in Very Healthy Condition.

TOTAL ASSETS INCREASED
Net Profits for Year 1913 Are Over One Million Dollars.

The Bank of Nova Scotia's eighty-second annual statement appears in this issue. Owing to changes in the form of statement made necessary by the recent revision of the Bank Act, comparison with last year's figures cannot readily be made. However, it may be noted that the total assets have increased during the year. Liabilities to the public (deposits, notes outstanding, etc.) total \$2,586,426.27. The holdings of coin and legal tender amount to \$1,404,418.68. Notes of and cheques on other banks, balances due by banks and banking correspondents, including sterling exchange amount to \$1,852,463.97 and other readily available assets such as call loans and investments are held to the extent of \$2,476,796.20. So it can be seen that against the Bank's liabilities to the public it holds in cash 10 per cent in immediately available 20 per cent, and in quick assets 40 per cent. This is a very strong showing and should be viewed with satisfaction by the shareholders and depositors.

Net profits for the year, after losses by bad debts and estimated and provided for, amount to \$1,274,742.90 compared with \$750,244.38 a year ago. These profits are distributed in the payment of dividends at the rate of 10 per cent, amounting to \$134,504.60 contribution to the officers' pension fund \$25,000, written off bank premises \$15,000, premium paid Bank of Nova Brunswick on purchase \$100,000 and transferred to the Reserve Fund \$10,000. Leaving a balance of \$11,124.07 to carry forward.

The paid up Capital has been increased by an issue of new stock and by the capital stock of the bank of Nova Brunswick, from \$7,250,000 to \$8,000,000. The reserve fund with addition of the reserve of the bank of Nova Brunswick, \$1,750,000, premium received on new stock, \$171,574.38, and incorporation from profit and loss of \$110,000, is brought to an even \$11,000,000.

The shareholders of this sound old institution must be pleased indeed to note that their bank has so well maintained its position during the year 1913.

WELFARE LEAGUE HAS SCHEME FOR PROVIDING WORK

(Continued.)

COUNCIL NOTES.

Land is Leased.—The city council has granted the use of the city-owned property at the intersection of the city and adjoining the city in block 17. The lease will embody a clause that the city will waive claim for any damage should a subway at this point be deemed necessary at any time in the future.

Offers Land to City.—John Walters is offering to sell to the city about four acres of land to complete the south side power house in the city. The price for the land is \$10,000. The council referred the offer to the parks and market committee for report.

Council Back to Normal.—All members of council with the exception of Alderman Sheppard were in their places last night. The attendance was down again to normal, and the business was transacted for the first time in a quiet and peaceful manner, there being little opposition manifested on the part of any of the members present.

Large Moose Head.—A very large moose head has been received by the Board of Health. It is the largest moose head ever known to be shot in Alberta.

STOMACH MISERY GAS, INDIGESTION

"Pape's Diapiesin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distresses will go. No indigestion, heartburn, nervousness, belching, flatulence, acid, or eruptions of undigested food, no flatulence, bloating, hot breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the most effective and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear. They know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long to make your life miserable. Eat what you like, digest it, enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which does not agree with them, or in case of an attack of indigestion, dyspepsia, gastritis, or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.
